

STATE OF CALIFORNIA
STATE WATER RESOURCES CONTROL BOARD

In the Matter of Permit 14873,
Issued on Application 21469,
JOHN THROCKMORTON,
Permittee.

Order: WR 75-19
Source: Kingston Creek
County: San Mateo

ORDER REVOKING PERMIT TO APPROPRIATE WATER
BY BOARD CHAIRMAN ADAMS:

A hearing having been held pursuant to Section 1410 of the Water Code before the State Water Resources Control Board on the 26th day of June, 1975, in the Resources Building 1416 Ninth Street, Sacramento, California, for the purpose of allowing John Throckmorton, hereinafter called the permittee, to show cause why Permit 14873 should not be revoked; due notice of the time, place, and nature of said hearing having been given by certified mail to said permittee; said notice having been received, as is evidenced by signed return receipt; no appearance having been made at said hearing by or on behalf of said permittee; evidence having been presented and received at said hearing and having been duly considered, the Board finds as follows:

1. Permit 14873 was issued in the matter of Application 21469 on September 30, 1965, to John Throckmorton for the appropriation of 0.3 cubic feet per second by direct

diversion and 50 acre-feet per annum by storage to be diverted or collected between October 1 and May 31 of each year from Kingston Creek in San Mateo County for irrigation, domestic, recreational, fish culture, fire protection and stockwatering purposes.

2. The time authorized in connection with said permit for completion of construction and to complete application of water to beneficial use expired on December 1, 1968. A petition for extension of said time for a period of three years was filed on January 31, 1974.

3. Permittee did not appear at the hearing after receiving notice thereof and has not shown good cause for this failure to appear.

4. Permittee's failure to appear constitutes an abandonment of interest in the subject matter of the permit.

5. Said permittee has failed to exercise due diligence in an effort to commence and complete the necessary construction work and to apply water to beneficial use in accordance with said permit and with Division 2 of the Water Code and the regulations of the Board.

It is concluded from the foregoing findings that further extension of time should be denied and that Permit 14873 should be revoked.

NOW, THEREFORE, IT IS ORDERED that further extension of time be denied, and IT IS FURTHER ORDERED that Permit 14873 be revoked, and all rights thereunder are terminated forthwith.

Dated: December 18, 1975
